Dear Steve,

I am writing this letter to let you know how satisfied I am with the work that you did on my room addition. I could not have asked for a more beautiful room and the workmanship and quality is outstanding. The work was performed within a very suitable time frame considering the delays we experienced. I am so pleased with the work you and your crew did for me that it is still difficult at times to believe this is my room.

The suggestions that you gave me throughout the construction job were the best ones as I am so pleased with the outcome. I will cherish the work you did and have shown many people the addition and let them know who did the job.

If I ever have any more work to be done around the house you will be the first and only one I will do work with. Your work is absolutely outstanding. Thank you so much for the hard work you did to accomplish such a beautiful room.

Sincerely,

Marilie Walker
